ARGUMENTS

Examiner has rejected the claims as being obvious over three cited references. The amended claims now have the limitation of a ratio of measured-to-theoretical low-temperature viscosity less than 1.2. The prior art including the cited references do not disclose that limitation. Accordingly, applicants request allowance of the application based on the amendment to the claims.

REMARKS

The prior art does not disclose the claimed limitations. Accordingly, applicants request allowance of the application.

Respectfully submitted,

Gary P. Katz
